Pelle Svensson

Children's Meeting Place

Dear friends,

You have an important meeting in networking Lake Victoria and the Baltic Sea Region. Children and youth all over the world sometimes need to get together and share thoughts and ideas with each other. There is always something we can learn from one another, even though we come from different nations and different cultures.

Also children have a lot to learn the political leaders of today, and I really hope that your meeting will be a starting-point for better understanding between children and political leaders in our regions. We need to listen more carefully to the young generation and we have to take your views seriously. I am convinced that your discussions will be constructive and lead to concrete results.

I wish you the very best for the future and good luck with your meeting.

Best regards,

The municipality of Strängnäs, Sweden, welcomes the cooperation between the cities in the Lake Victoria region.
We all share the concern of the environment and our children.
The city of Strängnäs hopes that all of us could be good listeners to the children.
We have much to learn from each other when we share how we work for the best of our children. Let us be inspired to be the roots that support our young citizens and take care of their ideas for the future.

I hope to continue the cooperation
