

The Globetree Association

ESTABLISHED IN STOCKHOLM IN 1982

"Do you really believe we have a future?" a little girl asked.

That question was the seed that became the Globetree. With children in the centre, Globetree works on a scientific base, using creativity as key tools to mobilize and support children and their teachers in their efforts to improve life and the living environment.

Since 1982, Globetree has been working with local, national and global projects and programs, ranging from theatre to science.

Strategies

Support local and international cooperation in practicing the Child's Rights and Agenda 21. Support local, national and international initiatives in and between schools, organizations and companies.

Mission & aim

A sustainable future based on the UN documents on the Child's Rights (1990) and Agenda 21 (1992).

Globetree is a NGO in SPECIAL consultative status with the Economic and Social Council of the United Nations
